

ARCHIE M^cCANN for Federal Council Rep – again.

1. An even more experienced voice

I've now been on Federal Council representing YL for two years. I had also been on my university branch's committee for three years as Secretary and Campaigns Officer, and my SU as Returning Officer. I now work in the engineering sector – I'm a big fan of getting stuff done!

2. Still standing up for our values

When I first joined the Federal Council, it was a brand-new body in the Party. It has now evolved, becoming an important place for scrutiny of major Party decisions to take place. I intend to make sure that liberal values aren't forgotten about, and that we can work with other groups in the Lib Dems to push for positive change.

3. Keeping YL's priorities on the agenda

YL goes through cycles of being listened to, then forgotten about. I want to keep our priorities on the agenda, so that progress is made even in the background.
