

Christopher Johnson for Non-Portfolio Officer!

Experience

I have been a member of the party for six years and active in YL for four or five of those years. I therefore have seen YL through several years, and so I have plenty of experience to draw on in offering support to the Executive. It has also given me a keen understanding of how YL works, and I want to ensure that continues to benefit both the membership and the Executive.

Social issues

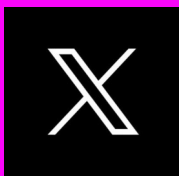

In the past year or two, several concerns have been raised by various people about the culture in YL, particularly surrounding misogyny and ableism. As an autistic person myself, I am eager to see a resolution to this. Therefore, as Non-Portfolio Officer I would carry out a review into these alleged issues with recommendations on tackling them.

WhatsApp/Social Media

Recently YL created a WhatsApp community. I would like to work with the Comms Officer and other members of the Executive to ensure we use this community, and indeed all our social media, to its best potential.

Under 18s

I want to continue the fantastic work that previous executives have done on finding ways to include under 18s.
