My priorities:

1. Champion the Young Liberals in the wider party:

I will be represent and promote Young Liberals and our values in the wider party. I will support and encourage more Young Liberal members standing in the wider party elections.

2. Contributing my skills and experiences:

Having been served in many leadership positions within YL and the Party, my diverse skills and experience in different fields (campaigning, international affairs, diplomacy, branch management and administration, membership development and policy writing) would be valuable to Young Liberals.

3. Being a supportive and listening ear:

Young Liberals should be a welcoming organisation to all members, and I always strive to achieve that goal. I will always support and listen to every member and executive officer to help Young Liberals to grow. I will be attending the meetings, reading the minutes and emails regularly, and support the executive.
