

### **Campaign for Campaigns and Communications Committee:**

On an orange and purple gradient background the top text reads: I am currently the Communications Officer at Warwick University, where I run our Instagram and WhatsApp community. What began as an unexpected role has grown into a real passion for media creation and clear, engaging communication. I want to use this experience to strengthen YL's online presence.

This is positioned to the right of a cutout of a megaphone.

Below this reads: I believe no other party's youth wing has the same reach as YL. But I want to make our platforms more dynamic and fun. From attention-grabbing stunts, mirroring Ed Davey's campaign, to launching a TikTok that shows the friendly, more informal side of YL, I want us to connect with more young people than ever before. We can lead the way in digital engagement across the Liberal Democrats.

This role is a chance to grow while giving back to YL. I'm excited to work with the events team to create bold, eye-catching campaigns for our conferences and activities. As well as expand my skills by working on platforms I am not familiar with, such as X, and improve my coding skills by contributing to the website design or emails.

My track record speaks for itself. Warwick Lib Dems were shortlisted for Best Publicity at the 2024–25 Union Awards. And this summer, I was proud to win the Media Mogul award at YL Conference 2025. With your support, I'll bring energy, creativity, and proven experience to the Communications Committee.

Behind all of this text are purple wavy lines. And to the right of the text reads 'Campaigns and Communications Committee needs Rachel Green'. In the bottom right of the page is a picture of the candidate pointing up to this slogan with a smile.

---

### **Campaign for West Midlands Chair:**

On a blue and pink gradient background, the top text reads: I'm entering my final year at Warwick University, in which I serve as Vice-President of the Warwick Liberal Democrats. And I live in Coventry, where I am to stand for the Liberal Democrats in the Wainbody ward for the May 2026 local elections. Although I may be originally from North Oxfordshire, I've made a home here in the West Midlands. Now I want to help shape a brighter future for the young people who also choose to build their lives in this region!

Text Below that reads: Over my time here, I've built strong links with councillors across Birmingham, Coventry, and Warwickshire. Now I want to expand my network across the whole West Midlands. As Chair, I'll work to re-establish Birmingham University's Lib Dem Society, while building new YL branches in Worcestershire, Shropshire, Staffordshire, and Herefordshire. And I'm already supporting Coventry University in setting up their YL branch, as I serve as Warwick's honorary representative on their executive.

To the right of the top text is the slogan Rachel Green for West Midlands Chair.

Below this is a picture of the candidate with a pink filter on, standing in front of the outline of the West Midlands region.

A paper speech bubble is pointing out from the candidate and reads: My goal is simple, I want to make YL in the West Midlands impossible to ignore. I want the region to be a united force that no one can overlook.
