#1 For Policy Committee
My Goals:

Fewer Constitutional Amendments!

I will work with other committee members to ensure conferences remain focused on policy and not CAs with an aim of limiting CAs to 5 per conference. This will make conferences more engaging and accessible for all members and especially first timers.

Condensing Policy

I want to work with committee and the policy officer to condense YL's policy offering to make it more accessible in line with the business motion passed at summer conference.

Continued Drafting Support

With the rest of policy committee I will continue to provide drafting support for members submitting policy proposals to conference to ensure submissions remain high quality and accessible.
