

Harvey for Events Committee

About me

As the current Federal Chair and a previous Comms Officer, I've worked really closely with Events Committee for a number of years. This included running comms plans, developing our Fringe, visiting venues, and running engaging training events.

I've got the rounded skill-set, contacts and party experience needed to make conferences a success.

Engaging and accessible events

Here's how I'll make our first Welsh Conference since 2018 a success:

1. Improving conference comms

- I want to provide extra capacity for the Comms and Events Officers, helping Committees to develop clear schedules for engaging, accessible and exciting content, including travel and accessibility guides , creating what we need to get more YLers to Conference!

2. Improving our Fringe

- Having worked in Parliament for 3 years, helped with our first-ever Fringe offering, and volunteered with members right across the country, I have the network of contacts and experience of organising to keep our Fringe and training relevant and exciting.

3. Improving debates

- I'll campaign to give our Events Committee the power to choose what we debate, not Policy Committee - just like Lib Dem Conference. The constitution doesn't always make thrilling debates, so I'll also lobby for a dedicated YL AGM during YL Conference to focus debate.
