

Josh Lucas Mitte - #1 for International Committee

International Mindset

As a result of my international background, having lived half my life in various other countries, as well as growing up in hyper-multicultural inner London, I have developed **great intercultural awareness** and a **heightened interest in international affairs**. I hope to continue to use my knowledge and skills to enhance the work of the international committee, **maintaining and expanding our relations with other sister parties** to maximise our work.

Supporting YL

- **Fundraising** - key to ensuring future delegations. I've been working with the Co-International Officers to identify large potential donors and draft plans to promote YL's international work across all levels of the party to get more financial backers.
- **Networking** - I've developed strong relations with members from sister parties while attending international events and at YL Conferences. At a crucial time for policy drafting on the international stage, and with the ambition for mutual training opportunities, my pre-existing connections will be helpful.
- **Outreach** - I have been working with the party's Regional Chairs to promote international opportunities beyond YL's own network, opening them up further, while encouraging under-represented members to apply to funded seminars.

Varied Experience

- **English YL Chair** - beginning to work with regions to promote international work and opportunities.
- **YL International Committee** - supporting preparation work even for delegations I am not part of, along fundraising plans.
- **Campaign Organiser** - trained on how to fundraise, even within small organisations; and on stakeholder management, key for international negotiations.

Endorsement

"Josh has been an active member of the Committee, supporting our work even when not present at events. His ideas to drive our fundraising and experience in outreach through regional parties will be key in the year ahead" - **Tom Jordan , International Co-Officer**
