

Mackenzie Gregory

your choice for Policy Committee

WHY ME?

- ① **Experienced policy-maker:** On the East of England Policy Committee, I wrote and passed an amendment at Federal Conference to expand youth services to rural areas by trialing mobile youth hubs and teams.
- ② **Proven at empowering members:** I've hosted policy webinars and consultations attended by over 50 people, helping members shape motions and influence the party, making sure everyone can take part in creating policy.
- ③ **Ready to push YL ideas further:** I know how to get Young Liberals policy adopted by the wider party, using my experience to drive change on issues affecting young people at the top level.

Speaking at federal conference to back young people.

MACK'S PLAN

- ① **Help every Young Liberal write policy:** Run sessions and guides so any member can turn their ideas into strong, conference ready motions.
- ② **Make policy reflect real youth concerns:** Listen widely and consult members to ensure what we pass speaks to young people's actual lives like my motion calling for the end of unfairly high car insurance costs to fall.
- ③ **Push YL policy into the wider party:** Fight to get YL's most important policies adopted nationally and make them the centrepiece of a full Young Liberals manifesto.
