

MACKENZIE GREGORY
Your choice for Policy Committee

ABOUT THIS MANIFESTO

This is a campaign manifesto page for Mackenzie Gregory's candidacy for the Policy Committee.

The design uses a warm orange and cream color scheme with bold headings and clear numbered icons.

At the top, Mackenzie's name is displayed prominently with the slogan "your choice for Policy Committee."

The left column explains "WHY ME?": three key reasons: being an experienced policy-maker, empowering members, and pushing Young Liberals ideas further.

The right column, titled "MACK'S PLAN," sets out three clear action points: helping every Young Liberal write policy, making policy reflect real youth concerns, and pushing Young Liberal policy into the wider party.

Photos show Mackenzie speaking at a podium and at a federal conference. A handwritten-style caption reads: "Speaking at federal conference to back young people." At the bottom right, there's a campaign badge-style logo with the words "Mackenzie #1 for Polcom."

WHY ME?

1. Experienced policy-maker
On the East of England Policy Committee, I wrote and passed an amendment at Federal Conference to expand youth services to rural areas by trialing mobile youth hubs and teams.
2. Proven at empowering members
I've hosted policy webinars and consultations attended by over 50 people, helping members shape motions and influence the party, making sure everyone can take part in creating policy.
3. Ready to push YL ideas further
I know how to get Young Liberals policy adopted by the wider party, using my experience to drive change on issues affecting young people at the top level.

MACK'S PLAN

1. Help every Young Liberal write policy
Run sessions and guides so any member can turn their ideas into strong, conference-ready motions.
2. Make policy reflect real youth concerns
Listen widely and consult members to ensure what we pass speaks to young people's actual lives — like my motion calling for the end of unfairly high car insurance costs.
3. Push YL policy into the wider party
Fight to get YL's most important policies adopted nationally and make them the centrepiece of a full Young Liberals manifesto.

Mackenzie #1 for Polcom
