

ABRIAL FOR POLICY OFFICER

MY PLAN

1

Build a full and complete YL manifesto

Work widely with YL and Lib Dem members to create a full manifesto that brings together YL conference motions and fills policy gaps, championing young people's life chances and values while aiming to leave no policy topic out, and pass it at YL conference.

2

Use it to fight for young people

Relentlessly and positively fight for young people's life chances by seizing every opportunity to promote their values and advance our policies.

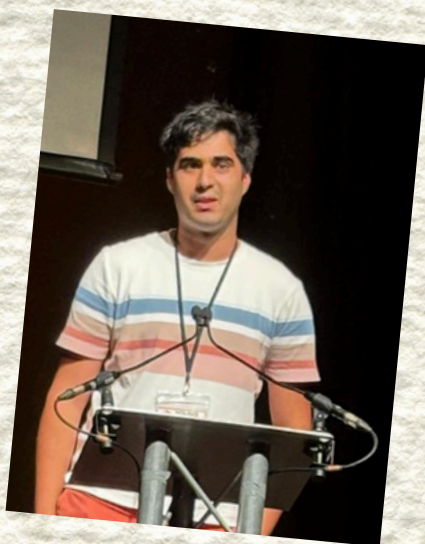

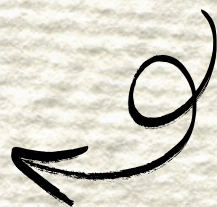

3

Take the party where it wouldn't go without us

Regularly use federal conference to pass pro-young people policy the party would not adopt without us. This would gain us attention and donations and gain YL greater engagement from senior figures in the party, meaning more resources for everything YL does.

Supporting
YL's Nuclear
amendment

WHY ME?

1

An experienced policy officer

As the North East Liberal Democrats Policy Officer, I have got amendments passed at party conference for cheaper rail travel and making regional inequality a priority for the party.

2

Ready to win internally

I spoke for YL's nuclear amendment in Bournemouth and helped organise to keep housing targets, showing I can stand up for young people even when it's tough.

3

Diversity at the heart of everything

I have served as minority ethnic rep on diversity committee and as LDCRE campaigns officer. I will make sure everyone can take part in making policy and that the diversity committee is involved in everything I do.

**VOTE ABRIAL JERRAM
#1 FOR POLICY OFFICER**
