

Brandon Masih

Vote #1 for Policy Officer your #2 on Policy Committee

Policy Achievements

Experience In Coalition Building

Proposed and passed the YL Emergency Motion on reforming Online Safety Act, and pushed within Policy Committee and worked with Victoria Collins to pass its equivalent at Autumn Conference 2025

Experience In Internal Organisation collaboration

Have worked extensively with LIBSTEMM, Liberal Reform, Lib Dem Health and Care Association, and with links to Liberal Democrat Education Association & Humanists and Secularists Liberal Democrats, I have worked to pass amendments on health and technology issues at Federal Conference.

Experience In Empowering People in Policy

Have sought to ensure high quality drafting advice when motions have come to Pol Com, encouraged members to consider submitting motions and amendments when having conversations in policy and ensured that when chairing/aiding motions we get new speakers on stage.

My Plan for Policy Officer

A Redefined Policy Committee

Policy Committee, with new responsibilities, can now be a force for rationalising and developing policy for YL.. I would work with my committee to identify and advertise projects we want policy development for, including those due to lapse, as well as immediately opening suggestions from membership as to ensure their ideas are flagged and can be worked together well in advance of Conference.

A Collaborative and Strong Voice

I have stood up and pushed YL policy at Federal Conference, will stand up for Young People in Policy at Federal Policy Committee, but with advent of YL's Young People's manifesto presents an opportunity for greater involvement for membership to have a say in section priorities whilst also communicating with groups such as LGBT+ Lib Dems to bring in expertise advice on selling our policies.
