

Lottie Wilson *for* EYL Chair

Support | Collaborate | Educate

Support

I want to ensure that everyone in EYL is given the tools to thrive. As EYL Chair, I see supporting our members, officers and regional chairs as the core of my role.

Clear communication and **consistent guidance** are absolutely necessary to ensuring that everyone feels supported and able to reach their full potential within this organisation.

Collaborate

As EYL Chair, I want to ensure that this organisation is a place of **community and teamwork**. One person cannot grow our membership over night, this has to be a team effort. It is only by listening to branches and regions, implementing advice from our brilliant Gender Diversity Working Group and looking beyond EYL for support that we will see real **growth** within this organisation.

Educate

The Young Liberals is incredibly effective at educating members and giving us space to **advance our skills and learn new ones**. In my next term, I would lean heavily into this aspect of the organisation to make my executive a place of real **personal growth and development**. I will ensure that every meeting includes a **development outcome** to encourage members to learn new skills that they can practice and hone through their roles.
