

Re-elect
Daniel Stothard
East Midlands Regional Chair

My Achievements in Office

Since taking office partway through the year, I have successfully created a social media presence for the region, something we have been missing up to this point, including on platforms such as Facebook and Instagram. This has included the beginning of a new visual identity for the region, which I hope to continue rolling out if re-elected.

I am currently in the process of establishing an executive for the region, after several years without one.

I have attended YL conference, ensuring the region is represented on a national level.

I am awaiting data access from the region, and have many plans to implement as soon as this is granted:

Engage

I plan to increase email and Whatsapp engagement with Young Liberal members within the region, ensuring that members understand what is going on within our party, allowing you to feel more included.

I plan to hold more events within the region to encourage Young Liberals to get involved with the party, and to get to know other Young Liberals.

This year, I have been involved in establishing a Liberal Democrat society at my own university, and plan to use this experience to help prospective societies within our own region, as there are none currently.

Amplify

I will continue to advocate for Young Liberals within the East Midlands, providing a strong voice both for youth within the region, and for our region at a national level.

Advance

I am seeking to promote youth development, ensuring that talented Young Liberals are given the opportunity to contribute and advance themselves.

I will support any Young Liberals standing as candidates within the region, helping them to get elected, and will encourage more Young Liberals to stand.

I will continue to help present the Liberal Democrats as a strong option within the region for young people disillusioned with the main two parties, and to stand against the rise of populism.
